Minnesota Department of Human Services transitioning Personal Care Assistance to Community First Services and Supports

The Minnesota Department of Human Services (DHS) will begin implementing Community First Services and Supports (CFSS) Oct. 1, 2024. Personal Care Assistance (PCA) providers who currently hold a participating provider agreement (PPA) with UCare will also be considered contracted to provide CFSS services. A separate CFSS-specific contract or amendment is not required.

Any modifications to the PCA/CFSS programs will be included in the [Provider Manual](#) and communicated through [provider bulletins and newsletters](#) or direct correspondence in writing.

Additional information regarding CFSS eligibility, training and requirements is available on the [DHS CFSS webpage](#).
