Appointment Availability Assessments

From June 30 through July 11, Aspirus Health Plan Medicare Advantage will call provider locations to assess appointment availability. Aspirus Health Plan selects a random sample of network locations for specific provider types and calls to identify the next available appointment. This assessment helps to ensure the Aspirus Health Plan network can provide care to members in a timely manner.

Refer to the Provider Responsibilities chapter of the [Aspirus Health Plan Provider Manual](#) for more information on Aspirus Health Plan's appointment availability standards.
