Dear <Member Name>,

EssentiaCare won't offer your Medicare plan in 2026. This means your coverage through EssentiaCare, including EssentiaCare Secure, EssentiaCare Grand and EssentiaCare Access, will end December 31, 2025. You need to make some decisions about your Medicare coverage.

What happens if you don't join another Medicare plan?

If you don't take action before December 31, 2025, you will lose your prescription drug coverage and only be covered by Original Medicare starting January 1, 2026.

Even if Medicare places you in Original Medicare, you still have other opportunities to join a Medicare Health or drug plan. Because your plan will no longer be available to you, and to provide you additional time to evaluate your options, you have a special opportunity to join a new plan any time until February 28, 2026. If you join a new Medicare plan AFTER December 31, your coverage in the new plan won't start until the month after you join.

If you don't join a plan with prescription drug coverage or a stand-alone Prescription Drug Plan with Original Medicare by February 28, 2026, you won't have prescription drug coverage in 2026 and you may have to pay a lifetime Part D late-enrollment penalty if you join a Medicare prescription drug plan later.

What do you need to do?

You need to choose how you want to get your health and prescription drug coverage. Review your options for Medicare coverage and decide which is best for you:

Option 1: You can join another Medicare health plan. Call 1-800-MEDICARE (1-800-633-4227) 24 hours a day, 7 days a week or visit [Medicare.gov](https://www.medicare.gov) to choose a new plan. A Medicare health plan is offered by a private company that contracts with Medicare to provide benefits. Medicare health plans cover all services that Original Medicare covers

and may offer extra coverage such as vision, hearing, or dental. Most Medicare health plans include prescription drug coverage. If you join a Medicare plan without drug coverage you may want to join a separate Medicare prescription drug plan to get prescription drug coverage. If you don't join a separate Medicare prescription drug plan you may have to pay a lifetime Part D late enrollment penalty if you choose to join one later.

Option 2: You can change to Original Medicare. Original Medicare is fee-for-service coverage managed by the Federal Government. If you choose Original Medicare, you need to join a separate Medicare prescription drug plan to get prescription drug coverage. You may also want to buy a Medicare Supplement Insurance (Medigap) policy to fill in the gaps in Original Medicare coverage. See below for more information on Medigap policies.

If you currently pay a reduced Part B premium, based on your current plan's benefit, you will lose access to this benefit effective January 1, and you will have the full Part B premium deducted from your monthly Social Security check unless you join another plan that offers this benefit.

Important Information:

Medigap Policies – You have a special right to buy a Medigap policy because your plan is ending. This letter is your proof that you have a special right to buy a Medigap policy. You'll have this special right for 63 days after your coverage with EssentiaCare ends. See the enclosed Medigap fact sheet for more information on your Medigap rights. You'll likely need to join a separate Medicare prescription drug plan if you want Medicare drug coverage.

If you have an employer or union group health plan, VA benefits, or TRICARE for Life, contact your insurer or benefits administrator. Ask how joining another plan or returning to Original Medicare affects your coverage.

What You Should Know About Medigap - Wisconsin

A Medigap policy (also called Medicare Supplement Insurance) is private health insurance that supplements Original Medicare. This means it helps pay some of the costs (“gaps”) that Original Medicare doesn’t cover (like copayments, coinsurance, and deductibles). If you have Original Medicare and a Medigap policy, Medicare will pay its share for covered health care costs then your Medigap policy pays its share.

Medigap coverage is different from your EssentiaCare (including EssentiaCare Secure, EssentiaCare Grand and EssentiaCare Access) coverage. Medigap policies only help pay if you are in Original Medicare. You don’t need a Medigap policy if you’re in a Medicare health plan.

In Wisconsin, there are five Medigap policies: a Basic Medicare Supplement Plan (with optional riders*), two cost-sharing plans (Plans K and L), a Medicare Select Plan and a high-deductible plan. Insurance companies can charge different premiums for the same policies, so be sure to compare.

Your Right to Buy a Medigap Policy

You’re losing coverage under EssentiaCare, so you have special rights to buy a Medigap policy. These rights are called “Medigap protections” or “guaranteed issue rights.” When you have guaranteed issue rights, the insurance company must sell you a policy, must cover pre-existing conditions, and can’t charge you more because of any health problems.

Make sure you keep a copy of the letter that says your coverage is ending. Because your coverage under our plan ends December 31, 2025, you must buy a Medigap policy no later than March 4, 2026. If you leave our plan before December 31, 2025, you have 63 calendar days from the day your coverage ends to buy a Medigap policy.

You may buy a Basic Medicare Supplement Plan with optional riders, Plan K or Plan L, a Medicare Select Plan, or the high-deductible plan. You may also have the right to buy a Medigap policy in these situations:

- If you are still in your Medigap Open Enrollment Period, you can buy any Medigap policy beginning the first month you have Medicare Part B and you’re 65 or older. This 6-month federal Medigap Open Enrollment Period is a one-time opportunity.
- If you are in an employer group that pays after Medicare, you can buy certain Medigap policies, depending on whether you're new to Medicare on or after January 1, 2020. You can do so beginning on the date you receive a notice of termination or your current employer group coverage that pays after Medicare ends, or on a claim denial (if this is the only way you know that your coverage ended) and ending 63 days after such notice.
- If you joined a Medicare Advantage or Program of All-Inclusive Care for the Elderly (PACE) plan when you were first eligible for Medicare Part A at 65, and within the first

*Coverage of the Part B deductible will no longer be available for people who are new to Medicare on or after January 1, 2020. However, if you were eligible for Medicare before January 1, 2020, but not yet enrolled, you may be able to get this benefit.

12 months of joining, you decide you want to switch to Original Medicare, you can buy any Medigap policy no later than 63 days after your coverage ends.

- If you dropped a Medigap policy to join a Medicare Advantage, Cost, or PACE plan for the first time, you have been in the plan less than a year, and you want to switch back, you can buy the Medigap policy you had before if the same insurance company still sells it. If not, you can buy certain Medigap policies, depending on whether you're new to Medicare on or after January 1, 2020. You have 63 calendar days from the day your coverage ends to buy a Medigap policy.

Federal law requires the protections described above. **Your State may have laws that provide more Medigap protections.**
