You will get the most coverage by using a network dentist. UCare Medicare Group Plans use the DentaQuest network administered by DentaQuest. You can find a list of network providers online at [dentaquest.com/findadentist](https://dentaquest.com/findadentist) or you can call the number on the front page for assistance.

Unlike most other dental plans, this plan includes out-of-network coverage. If you receive services from an out-of-network licensed dental provider, for most plans, you will be responsible for submitting your bills and paying the cost share and any difference between the actual billed charge and the DentaQuest dental fee schedule.

## Dental coverage limitations

Members must be enrolled in a plan for 24 consecutive months before coverage applies to bridges, dentures, prosthetics and implants. Frequency limits and waiting periods do not apply to plans with a yearly dental allowance. Otherwise these limitations apply to all plans.

- Endodontics: Limited to one (1) per tooth per lifetime.
- Periodontics (other than periodontal maintenance cleanings): Coverage is limited to one (1) non-surgical periodontal treatment and one (1) surgical periodontal treatment per quadrant every 36 months.
- Bone grafting: Coverage is limited to once per site (upper/lower ridge) in conjunction with building the bony ridge needed for successful placement of an implant or removable prosthetics (partial/full dentures).
- Major restorative services: Benefit for the replacement of a crown or an onlay will be provided only after a 60 month period, measured from the last date the covered dental service was performed.
- Prosthetics — removable and fixed: A prosthetic appliance (denture or bridge) for the purpose of replacing an existing appliance will be covered only after 60 months.
- Implant services: Replacing a single missing tooth. Coverage for implants is limited to once per tooth per lifetime (also see Exclusion #18).
