## What is the UCare formulary?

---

The UCare formulary is a list of generic and brand drugs that are covered by this plan(s). To be covered, the drug must be on our formulary. The most current list of covered drugs can be found on the UCare Individual & Family Plans formulary at [ucare.org](http://ucare.org).

To be covered, you must fill your prescription at a network pharmacy. The Provider Directory and Search Network tool at [ucare.org](http://ucare.org) includes in-network pharmacies. You can also visit [ucare.org](http://ucare.org) for the most current information.

Over-the-counter (OTC) drugs must be prescribed and on our formulary to be covered. This applies to drugs covered as part of the Essential Health Benefits, such as emergency contraception, tobacco cessation and diabetic supplies. OTC drugs which are not part of the Essential Health Benefits are usually not covered.

## Can the formulary change?

---

Generally, if you are taking a drug on our formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the coverage year except when a new, less expensive generic drug becomes available, when new adverse information about the safety or effectiveness of a drug is released by the FDA or when new biosimilar versions of biological products can be substituted for the original biological product.

## How do I use the formulary?

---

In the formulary, brand name drugs are capitalized (e.g. DILANTIN) and generic drugs are listed in lowercase italics (e.g. *fenofibrate*). UCare covers both brand name drugs and generic drugs. A generic drug is approved by the U.S. Food and Drug Administration (FDA) as having the same active ingredient as the brand name drug. Generally, generic drugs cost less than brand name drugs, but work just as well and are equally as safe as the brand drug.

### How to find prescription drugs in the formulary?

There are two ways to find your prescription drugs in the formulary. You can search by drug category or by alphabetical listing.

#### ***Search by Drug Category***

The formulary begins on page 8. The drugs in this formulary are grouped into categories depending on the medical conditions they are used to treat. For example, drugs used to treat a heart condition are listed under the category, “Cardiovascular Agents,” If you know what your drug is used for, look for the category name in the list that begins on page 8. Then look under the category name for your drug.

#### ***Search by Alphabetical Listing***

If you are not sure what class to look under, you can look for your drug in the Index. The Index provides an alphabetical list of all of the drugs included in the formulary. Both brand name and

generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information within the formulary.

### Tier Column Abbreviations

<b>\$0 Tier</b>	Preventive drugs that may be eligible for a zero-dollar copay. Select drugs require a prior authorization in order to qualify for the zero-dollar copay.
<b>DME</b>	Products covered under the DME (Durable Medical Equipment) benefit

The abbreviations/symbols in the Requirements/Limits column on the formulary tell you if UCare has any special requirements or limits on coverage for that drug. Use the key below to help understand the meaning of each abbreviation/symbol.

PA	Prior Authorization	Drugs that require approval from UCare before we'll cover it
ST	Step Therapy	Drugs that require you to try another drug before we'll cover it
QL	Quantity Limit	There are limits to the amount of drug covered per fill
CDS	Chronic Disease Supplies	Members have a monthly maximum out of pocket amount of \$50 for medical supplies used to treat a chronic disease. This benefit does not apply until after your deductible is met for HSA-eligible and catastrophic (UCare Core) plans.
CDD	Chronic Disease Drug	Members have a maximum copay amount of \$25 per one month supply for drugs used to treat a chronic disease. This benefit does not apply until after your deductible is met for HSA-eligible and catastrophic (UCare Core) plans.

SP	Specialty Drug	Specialty drugs that require you to fill your prescription through Fairview Specialty Pharmacy. Specialty drugs are injectable or oral drugs that often require special handling or monitoring by a pharmacist or nurse. If you use a specialty drug, your doctor will need to send the prescription to Fairview Specialty Pharmacy. You can then order it for delivery by contacting Fairview Specialty Pharmacy at 1-800-595-7140. Your drug and any needed supplies will be shipped to your home, work or doctor's office. A Fairview pharmacist is on call 24 hours a day to provide clinical support related to your specialty drug.
SF	Oncology Drug	Certain oral oncology drugs are limited to a 14 or 15-day supply per fill for the first 90-days of therapy (depending on package size).
INS	Insulin	Insulins with a \$25 copay per one-month supply (applies to copay and HSA plans)
MFG	Manufacturer Limitations	<ul style="list-style-type: none"> <li>• Coverage for epinephrine auto-injectors are limited to Mylan and Teva manufacturers</li> <li>• Coverage for albuterol HFA's are limited to Ventolin and generic Albuterol</li> </ul>
LA	Limited Access	Drugs that are only available at certain pharmacies. If you have questions, call Customer Service at the number on the back of your member ID card
EDS	Extended Day Supply	Drugs that are able to be filled for up to a 90-day supply
PV	Preventive	Drugs covered at \$0 for preventive use
TS	Tablet splitting	Tablet splitting savings opportunity

## **What if my drug is not on the formulary?**

If your drug is not included in this formulary, you should first contact UCare Customer Service and confirm that your drug is not covered. If you learn that UCare does not cover your drug, you can:

- Ask your doctor to prescribe a similar drug that is covered by UCare.
- Ask UCare to make an exception to cover your drug.

### **Requesting a formulary or drug restriction exception**

You or your doctor can ask UCare to make an exception and cover a non-formulary drug, drug restrictions, or limits. For help requesting an exception, call Customer Service at the number on the front cover. Or log in to your UCare member account and complete the Exception Request form.

Your doctor must submit a statement supporting the request. If your request is approved, the drug will be covered at the highest formulary drug tier. Exception requests for lower cost sharing amounts for drugs on a higher tier will not be granted.

### **For more information**

---

For more detailed information about your UCare prescription drug coverage, please review your *Member Contract* and other plan materials.

If you have questions, please call the UCare Customer Service number on the front cover or visit **ucare.org**.
