

Hospital Interim Claims Billing

Final Bill for Long-term Hospitalization must Include Appropriate Bill Type

As a reminder, hospitals billing interim claims for long stay inpatient cases to UCare must submit services in accordance with Centers for Medicare & Medicaid Services (CMS) billing guidelines. Please refer to the [CMS Claims Processing Manual](#) for detailed requirements including, but not limited to, submitting a final bill along with the use of appropriate bill type. Incorrectly submitted claims will be denied.

This requirement applies to claims submitted to UCare for all plans.
