Important reminders and updates for UCare interpreter providers

Providers should include a Minnesota Department of Health (MDH) Roster ID for all claims submitted to UCare for face-to-face oral interpreter services. Interpreter claims that do not contain the information below may be rejected.

A roster ID is not required for American Sign Language Interpreters; therefore, interpreter services submitted with a HCPCS code of "T1013" also must include modifier "U3" in any one of the four modifier segments.

For all other interpreter claims:

- The five-digit MDH Roster ID or the new MDH Roster ID that starts with IRSL (maximum of nine characters) is required in loop 2300, in REF02 with a REF01 = G1.
- The new MDH Roster ID should be submitted exactly as it was issued with the dash: IRSL-numeric value assigned.

Loop/segment	What to enter	Place on claim image
Loop 2300, segment REF01	G1	Box 23
Loop 2300, segment REF02	MDH Roster ID	Box 23

For more information on this and other requirements for interpreter providers, see UCare's [Provider Manual](#), Interpreter Services chapter.
