

Policy Number: CP-IFP22-023A

Effective Date: January 1, 2025

DME: Mastectomy Bras & External Breast Prosthesis (IFP)

The purpose of this policy is to provide clarity and specificity for coverage under the Durable Medical Equipment benefits for mastectomy garments and external prosthesis following mastectomy surgery. Items can be obtained from a contracted DME Vendor, or a local specialty provider, the member can submit for reimbursement.

This policy does not apply to breast prostheses surgically implanted during reconstructive surgery.

DISCLAIMER

Coverage Policies are developed to assist in identifying coverage for UCare benefits under UCare's health plans. They are intended to serve only as a general reference regarding UCare's administration of health benefits and are not intended to address all issues related to coverage for health services provided to UCare members.

These services may or may not be covered by all UCare products (refer to product section of individual coverage policy for product-specific detail). Providers are encouraged to have their UCare patient refer to their UCare plan documents (Evidence of Coverage/Member Handbook/Member Contract) for specific coverage information. If there is a conflict between a coverage policy and the UCare plan documents, the UCare plan documents prevail.

Medical Assistance (Medicaid) products may provide different coverage for certain services, which may be addressed in different policies. For Minnesota Health Care Program (MHCP) policies, please consult the MHCP Provider Manual website.

Medicare products may provide different coverage for certain services, which may be addressed in different policies. For Medicare National Coverage Determinations (NCD), Local Coverage Determinations (LCD), and/or Local Coverage Articles, please consult CMS, National Government Services, or CGS websites.

Coverage Policies do not constitute medical advice. Providers are responsible for submission of accurate and compliant claims.

Benefit category:

Durable Medical Equipment

Definitions or summary

UCare covers breast reconstruction after a mastectomy surgery and reconstruction of the other breast to produce an even appearance. This includes prostheses and physical complications of all stages of mastectomy and reconstructive surgery, and treatment for lymphedema.

Mastectomy Bra-used to support an external breast prosthesis mastectomy bra, without integrated breast prosthesis form, any size, any type" describes a bra with pockets that are intended to hold a mastectomy form or breast prosthesis held adjacent to the chest wall. These do not include an integrated breast prosthesis. They may be constructed of any material (e.g., cotton, polyester, or other materials), with any type or location of closure, any size, with or without integrated structural support (e.g., underwire).

Mastectomy Camisole-alternate external breast prosthesis garment, with mastectomy form, post mastectomy" describes a camisole type undergarment with polyester fill used post mastectomy.

Breast Prosthesis-device or item worn externally that replaces a surgically removed breast. Generally made from silicone or foam, may be used with mastectomy garment or may be self-adhesive and attach to the chest wall.

Coverage policy

Covered

- External breast prostheses are covered post mastectomy
 - limited to one type per affected side.
