Instructions
Add: UCare will add this IP address to the existing list for your agency. Remove: UCare will remove this IP address from the existing list for your agency UCare requires your public IP address to allow your network access to NovusMED. To find your public IP address, use a web browser on the computer you will login to NovusMED and go to www.google.com. In Google's search bar, type "What is my IP address?" and hit Enter. Google will display your public IP Address in the search results. Enter this number into the IP Address information field of the form. Please note: UCare can approve multiple email addresses for an organization or user. If you need more IP Addresses approved, please include them on the form. Submit this form to health_ride@ucare.org.
