PAYMENT POLICY INSTRUCTIONS

A payment policy assists in determining provider reimbursement for specific covered services. To receive payment, the provider must be in a contractual relationship with UCare and provide services to a member enrolled in one of UCare's products. This payment policy is intended to provide a foundation for system configuration, work instructions, call scripts, and provider communications. A payment policy describes the rules for payment, which include applicable fee schedules, additional payment rules by regulatory bodies, and contractual terms. This policy is a general guideline and may be superseded by specific provider contract language.

PAYMENT POLICY OVERVIEW

Partial hospitalization is a time- limited, structured program of multiple and intensive psychotherapy and other therapeutic services provided by a multidisciplinary team (as defined by Medicare) provided in an outpatient hospital setting outpatient department facility or a Medicare-certified community mental health center (CMHC) meeting Medicare requirements. Partial hospitalization programs focus on resolving or stabilizing an acute episode of mental illness.
