Navigating to your files:

From the Home screen click on either Folders or Browse Other Folders as shown below.

Option 1 (preferred): Left navigation pane to files

- Click On Folders in the left navigation pane
- Click on Distribution
- Click on each sub folder until you see the files needed.

Option 2: Main body of website navigation:

- On Home Screen in main section called Browse Files and Folders click on Browse Other Folders
- Click on Distribution
- Click on each sub folder until you see the files needed.

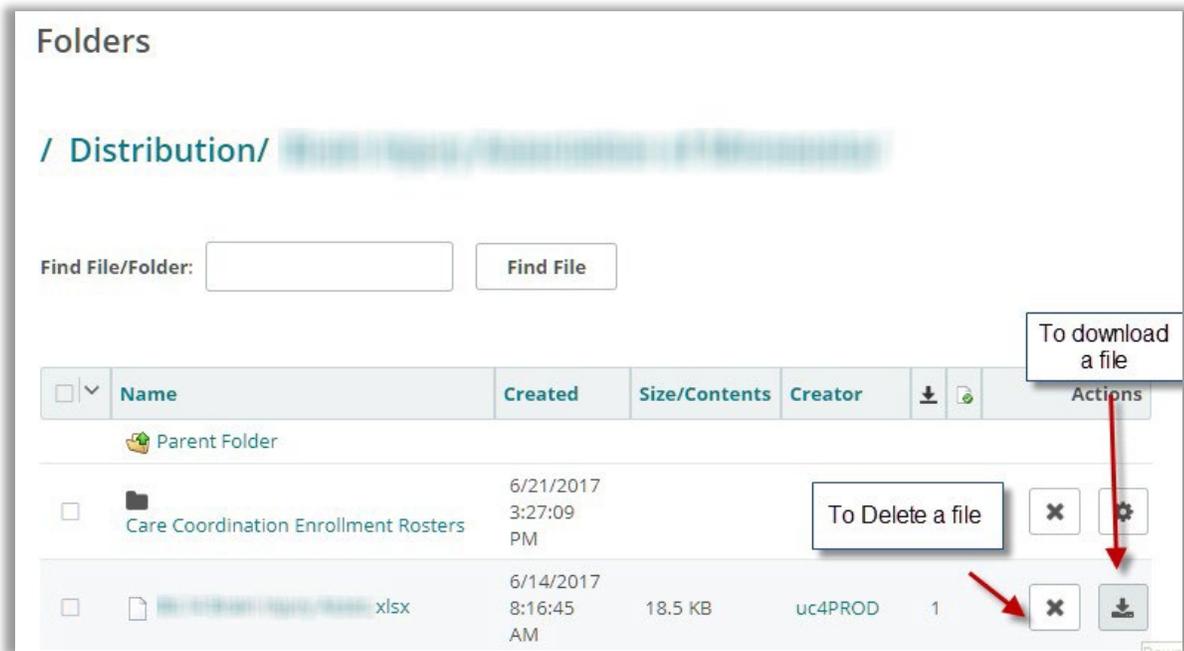

The screen capture below represents a folder directory that does not contain any files. This view could occur due to the timing of when reports were uploaded or the content has been deleted by a user or automatically removed after 90 days.

To download and delete Files

To download a file click on the download icon that is shown on the far right of the image below: 

To delete a file click on the delete file icon located next to the download icon: 

Follow any prompts you receive when you click the download button. You may be prompted to open or save the file, it may just automatically download or just open depending on your internet browser and settings.

If you are having technical trouble downloading files, you can find information on the MY ACCOUNT tab that may help your tech support personnel troubleshoot the issue. It includes technical information needed to download files. This information will be located near the bottom of the MY ACCOUNT section.
