

Title: Chimeric Antigen Receptor (CAR) T-cell Therapy for Cancers (CAG-00451N)

Decision: The Centers for Medicare and Medicaid (CMS) will cover chimeric antigen receptor T-cell therapy.

What this means: Under certain circumstances, Medicare covers CAR T-cell therapy for treatment of cancers. Check with your physician to find out how your situation would meet the criteria for coverage.

Effective: 8/7/19

For more information, call Customer Service at the phone number on your member ID card.
